Auditor's Report on Compliance with the Global Investment Performance Standards on a firm-wide basis

To: The Directors of Caisse de dépôt et placement du Québec

We have audited Caisse de dépôt et placement du Québec – Depositors' accounts (the "Company") compliance with the composite construction requirements for the Global Investment Performance Standards ("GIPS") on a firm-wide basis for the year ended December 31, 2017, and the design of its processes and procedures to calculate and present performance results in compliance with the GIPS Standards as of December 31, 2017. Compliance with the GIPS Standards is the responsibility of the management of the Company. Our responsibility is to express an opinion based upon our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the Company complied with the criteria established by the GIPS Standards. Such an audit includes examining, on a test basis, evidence supporting compliance, evaluating the overall compliance with these criteria, and where applicable, assessing the accounting principles used and significant estimates made by management.

In our opinion, the Company has complied with the GIPS Standards for the year ended December 31, 2017, including the composite construction requirements on a firm wide basis and the design of its processes and procedures to calculate and present performance results in compliance with the GIPS Standards as of December 31, 2017.

We have issued a separate audit report on certain individual composite presentations of the Company dated February 21, 2018 and accordingly, we express no opinion or any other form of assurance on any such performance results in this compliance report.

Independent Auditor's Report

To the Directors of
Caisse de dépôt et placement du Québec

We have examined the performance calculation included in the accompanying Composite Performance Summary of Caisse de dépôt et placement du Québec (the "Schedules") for the year ended December 31, 2017. The Schedules have been prepared by management of Caisse de dépôt et placement du Québec based on the Global Investment Performance Standards ("GIPS") of the CFA Institute as described in the Notes to the Schedules.

Management's Responsibility

Management is responsible for the preparation of the Schedules in accordance with the GIPS Standards as described in the Notes to the Schedules, and for such internal control as management determines is necessary to enable the preparation of Schedules that are free from material misstatement, whether due to fraud or error. Management is also responsible for determining that the financial reporting framework is acceptable in the circumstances.

Auditor's Responsibility

Our responsibility is to express an opinion on the Schedules based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform the procedures for a Verification and Performance Examination set forth by the GIPS Standards and such other procedures as we considered necessary in the circumstances.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedules. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Schedules, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the Schedules in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the Schedules.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the Schedules present fairly, in all material respects, the composites and benchmarks returns of Caisse de dépôt et placement du Québec for the year ended December 31, 2017, in accordance with the calculation methodology required by the GIPS Standards of the CFA Institute as described in the Notes to the Schedules.

Other matters

We have issued a separate audit report on the Caisse de dépôt et placement du Québec's compliance on a firm-wide basis with GIPS dated February 21, 2018, and accordingly, we express no opinion or any other form of assurance on any such performance results in this report.

Basis of Performance Calculation and Restrictions on Distribution and Use

Without modifying our opinion, we draw attention to the Notes to the Schedules, which describe the basis of performance calculation. The Schedules are prepared to meet the requirements of the GIPS Standards. As a result, the Schedules may not be suitable for another purpose.

General Notes

1. Presentation of the firm

Caisse de dépôt et placement du Québec ("la Caisse") is a financial institution that manages funds for Québec's public and parapublic pension and insurance plans (the "depositors"). La Caisse invests in large liquid markets, private equity and real estate. The net assets attributable to depositors, excluding demand deposits and term deposits, totalled \$298.4 billion as at December 31, 2017. This document presents the returns related to the funds managed by la Caisse for the depositors (see Note 7, p. 9).

2. Compliance statement

La Caisse claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. La Caisse has been independently verified for the periods from January 1, 2008 through December 31, 2017.

Verification assesses whether (1) la Caisse has complied with all the composite construction requirements of the GIPS® standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS® standards. The composites have been examined for the periods from January 1, 2008 to December 31, 2017.

3. Performance calculations

Performance calculations are based on monthly calculations using the modified Dietz formula. All deposits or withdrawals take place on the first day of each month. As a result, cash flows have no effect on performance.

Each discretionary portfolio for which la Caisse allocates operating expenses is included in at least one composite. The composites are valued according to transaction date, and their returns are calculated monthly. The geometric linking method is then used to calculate quarterly and annual returns.

Total returns, including realized gains and losses on the sale of investments, unrealized gains and losses, and investment income and expenses, are used to calculate returns. These returns include any income generated on cash and cash equivalents. Interest income is accrued and is included in the market value used to calculate returns. Dividend income is generally accrued as of the ex-dividend date.

In accordance with the decision of the Accounting Standards Board of Canada (AcSB), la Caisse adopted International Financial Reporting Standards (IFRS) effective January 1, 2014. Under IFRS, la Caisse qualifies as an investment entity. Accordingly, all financial instruments are measured at fair value in accordance with IFRS 13, *Fair Value Measurement*.

IFRS requires a company qualifying as an investment entity to evaluate its subsidiaries at fair value as an investment rather than consolidate them. The fair value of these subsidiaries is established using an enterprise value method that reflects, among other things, the fair value of financial instruments held directly by these subsidiaries. Previously, under Canadian Generally Accepted Accounting Principles, the composites included consolidation of the subsidiaries' assets and liabilities.

All the composites adopted IFRS during the year ended December 31, 2014. Adoption of the new standards as at January 1, 2014 had no impact on the returns presented. However, the Real Estate composite had early adopted IFRS on January 1, 2012.

For more details on the valuation methods, policies, guidelines and procedures related to fair value measurement, refer to Note 7 to the Consolidated Financial Statements.

The fair value of fixed-income securities is determined from the closing prices of such securities published by brokers as well as those provided by recognized financial institutions, depending on their availability. When a value is not available, the fair value is determined by valuation techniques commonly used in capital markets, such as discounting of future cash flows at the current interest rate. As at December 31, 2017, la Caisse no longer holds asset-backed term notes (ABTNs) following the closing of the specialized portfolio on June 1, 2017. For more information on the valuation methodology used for ABTNs, refer to Note 7 to the Consolidated Financial Statements.

The fair value of corporate receivables is determined using a discounted cash flow technique that primarily uses observable and unobservable inputs such as the interest rate curves and credit spreads that make up the discount rates.

The fair value of shares traded on a stock exchange is determined from closing prices on the major stock exchanges.

Valuations of unlisted shares are made according to commonly used valuation techniques or on the basis of similar arm's length transactions. Valuations of shares and convertible securities that are not publicly traded are reviewed by la Caisse's Valuation

Committee. Certain valuations are reviewed semi-annually by independent external firms. The fair value of investment funds is determined based on the fair value of the net assets provided by the general partner or the administrator.

The proportion of the Private Equity, Infrastructure and Real Estate composites held by the depositors does not fluctuate between valuation periods.

Derivative financial instruments are recorded at their fair value. The fair value of derivative financial instruments is determined according to the type of derivative financial instrument. The fair value of derivative financial instruments traded on exchange markets and settled through a clearing house is determined, respectively, using the prices on the major stock exchanges representing the active market and clearing house prices. The fair value of derivative financial instruments traded on over-the-counter markets is determined using recognized and commonly used valuation techniques such as the discounted cash flow technique or other financial models. These techniques require the development and use of assumptions that take into account observable and unobservable inputs such as the interest rate curves and credit spreads that make up the discount rates as well as foreign exchange rate curves, prices of the underlying, and volatility.

La Caisse may, in certain countries, benefit from a tax exemption or a reduced rate of taxation with respect to income and interest, under domestic law or a tax treaty between Canada and the foreign country in question. Composite returns are presented after non-resident taxes, if applicable. Except for Canada, benchmark returns are presented after non-resident taxes.

On January 1, 2017, la Caisse adopted a new currency management policy. La Caisse's default position is not to hedge exposure to the currencies of assets with a higher risk profile; in periods when the Canadian dollar is sharply undervalued against its equilibrium value based on valuation models, dynamic management is implemented, which aims to hedge la Caisse's principal exposure. Dynamic adjustments are integrated into the composites' benchmarks. For the other currencies, a discretionary hedging strategy can be implemented by the manager to hedge investments in the portfolio.

4. Risk measure

For the Balanced Fund composite, dispersion is measured by the standard deviation of annual returns for each of the depositors' accounts that are present in the composite during the entire year.

For the other composites, this dispersion measure is not used because there are fewer than five portfolios in each of the composites. The dispersion of returns is measured by the annualized standard deviation of monthly returns, for the composite and its benchmark, over a rolling three-year period.

This information is not presented for the Private Equity, Infrastructure and Real Estate composites because they are entirely valued semi-annually.

5. Operating expenses and other fees

Given the nature of la Caisse, operating expenses and other fees that are charged to the composites are the actual expenses incurred to manage these funds. Total fees are allocated according to cost drivers specific to the different investment activities. All returns in this presentation are calculated before operating expenses and other fees, but net of transaction fees, external management fees related to investment funds, and unconsolidated real estate subsidiaries fees. The actual expenses incurred for each composite are presented in basis points (bps).

6. Currency used for reporting

All returns and assets are presented in Canadian dollars.

7. Net assets under management

Net assets under management correspond to net assets attributable to depositors, presented in the Consolidated Financial Statements, adjusted to exclude assets that are not covered by the firm, as described in Note 1, namely depositors' demand deposits and term deposits.

8. Additional information

In April 2017, Roland Lescure, Chief Investment Officer of la Caisse, left his position to become active in public affairs and politics. His responsibilities were reallocated internally, in continuity with the existing management teams.

The internal procedures manual concerning portfolio valuation, performance calculation and preparation of this presentation of returns is available to existing and potential depositors upon request at servicesadministratifsdepositants@cdpq.com.

Rates

Returns and net assets under management for the year ended December 31:

| | Returns (%) | | | Risk (%) | | Net Assets (\$K) | |
|------|-------------|-----------|--------|-------------------|---------------------|------------------|-----------------------------|
| | Composite | Benchmark | Spread | Std. Dev. Returns | Std. Dev. Benchmark | Composite | Net Assets Under Management |
| 2017 | 1.77 | 1.37 | 0.40 | n/a | n/a | \$40,064,741 | \$298,424,595 |

Annualized returns as at December 31 (as a percentage):

| | 1 Year | 2 Years | 3 Years | 4 Years | 5 Years | 6 Years | 7 Years | 8 Years | 9 Years | 10 Years |
|-----------|--------|---------|---------|---------|---------|---------|---------|---------|---------|----------|
| Composite | 1.77 | | | | | | | | | |
| 2017 | | | | | | | | | | |
| Benchmark | 1.37 | | | | | | | | | |
| Spread | 0.40 | | | | | | | | | |

Notes to the Rates composite:

1. Composite description

As part of the overall revision of specialized portfolios offered to depositors, the Bonds composite was closed and a portion of its assets and liabilities were acquired at fair value to create the Rates composite as of January 1, 2017. The remaining portion of assets and liabilities from the Bonds composite are now included in the Credit composite.

The Rates composite is la Caisse's principal source of liquidity. The objective is to offer added value above the benchmark by investing primarily in sovereign bonds issued by Canada (including the provinces) and other developed countries. This composite is divided into three mandates: Rate Management, Sovereign Debt, Strategic. For each of these mandates, a rigorous investment process, governed by an investment committee, oversees security selection and portfolio construction.

An immaterial portion of the composite's assets may be allocated to external managers.

This composite may use up to 10% leverage in the normal course of investment activities.

This composite's foreign investments are fully hedged against currency risk.

The use of derivative financial instruments for currencies is allowed solely for currency hedging purposes.

Securities lending and borrowing activities as well as short selling, are authorized as part of the management of this composite, based on approved limits.

2. Composite creation date

This composite was created on January 1, 2017.

3. Benchmark

The benchmark for this composite is a combination of 70% FTSE TMX Canada Federal Non-Agency Bond and 30% FTSE TMX Canada Provincial Quebec Bond.

4. Calculation period

The return on this composite is calculated from January 1, 2017, to December 31, 2017.

5. Operating expenses and other fees

Returns are calculated before operating expenses and other fees, but net of transaction fees. Operating expenses and other fees in basis points correspond to the ratio of actual expenses incurred on average net assets.

Since the inception of the composite (January 1, 2017), operating expenses and other fees averaged 5 bps.

Credit

Returns and net assets under management for the year ended December 31:

| | Returns (%) | | | Risk (%) | | Net Assets (\$K) | |
|------|-------------|-----------|--------|-------------------|---------------------|------------------|-----------------------------|
| | Composite | Benchmark | Spread | Std. Dev. Returns | Std. Dev. Benchmark | Composite | Net Assets Under Management |
| 2017 | 5.14 | 4.01 | 1.13 | n/a | n/a | \$50,644,553 | \$298,424,595 |

Annualized returns as at December 31 (as a percentage):

| | 1 Year | 2 Years | 3 Years | 4 Years | 5 Years | 6 Years | 7 Years | 8 Years | 9 Years | 10 Years |
|-----------|--------|---------|---------|---------|---------|---------|---------|---------|---------|----------|
| Composite | 5.14 | | | | | | | | | |
| 2017 | | | | | | | | | | |
| Benchmark | 4.01 | | | | | | | | | |
| Spread | 1.13 | | | | | | | | | |

Notes to the Credit composite:

1. Composite description

As part of the overall revision of specialized portfolios offered to depositors, the Bonds and Real Estate Debt composites were closed. A portion of the assets and liabilities of the Bond composite and the assets and liabilities of the Real Estate Debt composite were acquired at fair value to create the Credit composite as of January 1, 2017. This composite's objective is to outperform its benchmark. To achieve this objective, the composite adopts a benchmark-agnostic management approach. The search for value added is conducted based on movement in risk premiums and seeking investment opportunities offering an adequate risk-return profile while limiting potential capital losses. This composite is subdivided into five mandates: Corporate Credit, Real Estate Debt (Otéra Capital subsidiary), Sovereign Debt, Specialty Finance, Strategic. For each of these mandates, a rigorous investment process, governed by an investment committee, oversees security selection and portfolio construction.

A portion of the composite's assets is allocated to external managers.

This composite may use up to 5% leverage in the normal course of investment activities.

Except for investments denominated in growth market currencies, this composite is hedged against currency risk. However, a hedge can be implemented for assets denominated in growth market currencies.

The use of derivative financial instruments for currencies is allowed solely for currency hedging purposes.

Securities lending and borrowing activities as well as short selling are authorized as part of the management of this composite, based on approved limits.

2. Composite creation date

This composite was created on January 1, 2017.

3. Benchmark

The benchmark for this composite is a combination of 10% FTSE TMX Canada Provincial Quebec Bond, 75% FTSE TMX Canada Corporate Bond Index and 15% Merrill Lynch High Yield (Hedged). The weight of the hedged Merrill Lynch High Yield component is adjusted based on the deployment of value-added assets.

4. Calculation period

The return on this composite is calculated from January 1, 2017, to December 31, 2017.

5. Operating expenses and other fees

Returns are calculated before operating expenses and other fees, but net of transaction fees, expenses related to unconsolidated subsidiaries and investment fund fees. Operating expenses and other fees in basis points correspond to the ratio of actual expenses incurred on average net assets.

Since the inception of the composite (January 1, 2017), operating expenses and other fees averaged 14 bps.

6. Investment valuation

For more information on the valuation methodology used for real estate debt investments held by subsidiary, Otera Capital, as well as specialty financing activities, please refer to Note 7 of the Consolidated Financial Statements.

Long Term Bonds

Returns and net assets under management for years ended December 31:

| | Returns (%) | | | Risk (%) | | Net Assets (\$K) | |
|------|-------------|-----------|--------|-------------------|---------------------|------------------|-----------------------------|
| | Composite | Benchmark | Spread | Std. Dev. Returns | Std. Dev. Benchmark | Composite | Net Assets Under Management |
| 2017 | 7.96 | 7.56 | 0.40 | 8.86 | 8.85 | \$2,935,494 | \$298,424,595 |
| 2016 | 2.07 | 2.12 | (0.06) | 8.38 | 8.40 | \$2,639,527 | \$270,018,068 |
| 2015 | 4.68 | 4.75 | (0.07) | 8.30 | 8.33 | \$2,390,024 | \$247,494,947 |

| 2011 | 18.55 | 18.63 | (0.08) | 6.54 | 6.51 | \$3,758,146 | \$158,706,574 |
| 2010 | 12.30 | 12.32 | (0.02) | 7.34 | 7.51 | \$3,597,657 | \$151,387,764 |
| 2009 | 2.11 | 1.25 | 0.86 | 7.12 | 7.29 | \$3,102,148 | \$131,103,348 |
| 2008 | 4.64 | 6.16 | (1.51) | 7.13 | 7.33 | \$3,039,517 | \$117,950,388 |

Annualized returns as at December 31 (as a percentage):

| | 1 Year | 2 Years | 3 Years | 4 Years | 5 Years | 6 Years | 7 Years | 8 Years | 9 Years | 10 Years |
|------|-----------|---------|---------|---------|---------|---------|---------|---------|---------|----------|
| 2017 | Composite | 7.96 | 4.97 | 4.88 | 8.06 | 4.98 | 4.72 | 6.59 | 7.29 | 6.70 |
| | Benchmark | 7.56 | 4.81 | 4.79 | 8.04 | 4.98 | 4.76 | 6.64 | 7.34 | 6.64 |
| | Spread | 0.40 | 0.17 | 0.09 | 0.02 | 0.00 | (0.04) | (0.05) | (0.05) | 0.06 |

Notes to the Long Term Bonds composite:

1. Composite description

This composite consists essentially of Canadian bonds with long-term maturities. Since January 1, 2010, the composite's objective has been to replicate the return of its benchmark.

This composite only contains securities denominated in Canadian dollars.

2. Composite creation date

This composite was created on April 1, 2005.

3. Benchmark

Since January 1, 2012, the benchmark has been called the FTSE TMX Canada Long Term Government Bond Index (Adjusted) and it consists of 10% FTSE TMX Canada Long Term Federal Bond Index, 40% FTSE TMX Canada Long Term Provincial Bond Index and 50% FTSE TMX Canada Long Term Québec Bond Index. This change was made to better reflect the makeup of the composite.

From January 1, 2011, to December 31, 2011, the benchmark was the FTSE TMX Canada Long Term Government Bond Index (Adjusted), which was a combination of 25% FTSE TMX Canada Long Term Federal Bond Index, 25% FTSE TMX Canada Long Term Provincial Bond Index and 50% FTSE TMX Canada Long Term Québec Bond Index. This change was made to better reflect the makeup of the composite.

From July 1, 2010, to December 31, 2010, the benchmark for this composite was the FTSE TMX Canada Long Term Government Bond Index (Adjusted) with the Provinces portion replaced by Québec bonds. This change of benchmark was warranted to better reflect the overweighting of Québec bonds in the composite.

From January 1, 2008, to June 30, 2010, the benchmark for this composite was the FTSE TMX Canada Long Term Government Bond Index.

4. Calculation period

The return on this composite is calculated from January 1, 2008, to December 31, 2017.

5. Operating expenses and other fees

Returns are calculated before operating expenses and other fees, but net of transaction fees. Operating expenses and other fees in basis points correspond to the ratio of actual expenses incurred on average net assets. For the previous four years, the ratio corresponds to the average of the annual ratios.

For the 12 months ended December 31, 2017, operating expenses and other fees for this composite are 2 bps. For the previous four years (January 1, 2013, to December 31, 2016), fees averaged 6 bps.

Real Return Bonds

Returns and net assets under management for years ended December 31:

| | Returns (%) | | | Risk (%) | | Net Assets (\$K) | |
|------|-------------|-----------|--------|-------------------|---------------------|------------------|-----------------------------|

| | | | | | | | | | | (0.04) |

Notes to the Real Return Bonds composite:

1. Composite description

This composite consists of la Caisse's investments in Canadian real return bonds. The face value of real return bonds is linked directly to the Consumer Price Index. Since January 1, 2010, the composite's objective has been to replicate the return of its benchmark.

This composite only contains securities denominated in Canadian dollars.

2. Composite creation date

This composite was created on October 1, 2004.

3. Benchmark

The benchmark for this composite is the FTSE TMX Canada Real Return Bond Index.

4. Calculation period

The return on this composite is calculated from January 1, 2008, to December 31, 2017.

5. Operating expenses and other fees

Returns are calculated before operating expenses and other fees, but net of transaction fees. Operating expenses and other fees in basis points correspond to the ratio of actual expenses incurred on average net assets. For the previous four years, the ratio corresponds to the average of the annual ratios.

For the 12 months ended December 31, 2017, operating expenses and other fees for this composite are 6 bps. For the previous four years (January 1, 2013, to December 31, 2016), fees averaged 8 bps.

Notes to the Short Term Investments composite:

1. Composite description

The objective of the composite is to preserve invested capital and to maintain a high degree of liquidity while obtaining a current yield comparable to that of the FTSE TMX Canada 91-Day TBill Index.

This composite uses derivative financial instruments in the normal course of its management. Derivatives are used in order to manage interest rate risk or debt duration.

This composite only contains securities denominated in Canadian dollars.

2. Composite creation date

This composite was created on September 1, 1998.

3. Benchmark

The benchmark for this composite is the FTSE TMX Canada 91-Day TBill Index.

4. Calculation period

The return on this composite is calculated from January 1, 2008, to December 31, 2017.

5. Operating expenses and other fees

Returns are calculated before operating expenses and other fees, but net of transaction fees. Operating expenses and other fees in basis points correspond to the ratio of actual expenses incurred on average net assets. For the previous four years, the ratio corresponds to the average of the annual ratios.

For the 12 months ended December 31, 2017, operating expenses and other fees for this composite are 1 bp. For the previous four years (January 1, 2013, to December 31, 2016), fees averaged 1 bp.

Notes to the Real Estate composite:

1. Composite description

This composite consists of investments held by the real estate subsidiary Ivanhoé Cambridge. More than 80% of the composite's gross assets are comprised of direct holdings. The remaining investments held by the subsidiary include investment funds, mortgages, equities and convertible securities, which are primarily related to real estate assets.

This composite, through the real estate subsidiary, may include derivative financial instruments in the normal course of its management. Derivatives are used mainly to hedge

against currency risk, manage interest rate risk and manage the duration of debt.

For the real estate subsidiary's direct holdings, the maximum leverage is 55%. No leverage is authorized for indirect holdings. Securities lending and borrowing, as well as securities sold short are permitted in the composite within authorized limits.

Since January 1, 2017, this composite may include currency hedging activities, in compliance with the Currency Management Policy adopted by la Caisse. Refer to Note 3 of the General Notes for more details.

2. Composite creation date

This composite was created on September 1, 1998.

3. Benchmark

As at January 1, 2017, the benchmark was gradually unhedged according to the transition plan defined in the Currency Management Policy. A hedging strategy may be put in place for the main currencies in accordance with the process and guidelines defined in the Currency Management Policy. This change was made to better reflect the Currency Management Policy adopted by la Caisse.

From January 1, 2016, to December 31, 2016, the Real Estate Index has consisted of 85% of the Adjusted IPD Global Property (Hedged) Index and 15% of the IPD Global Property Funds Index (Hedged), less a leverage cost, a management cost and tax fees. The leverage cost consists of 50% of the hedged internal real cost of financing, 25% of the 4-6 year Gilberto-Levy hedged U.S. mortgage rate, and 25% of the Canadian 5-year bond rate plus a Canadian mortgage credit spread. The changes were justified to better reflect the investment opportunities and overall geographic diversification of the composite.

From January 1, 2010, to December 31, 2015, the benchmark was called the Aon Hewitt-Real Estate Index (Adjusted) and it consisted of 40% IPD Canada Index, 30% NCREIF Index (Hedged), 15% IPD UK Index (Hedged) and 15% IPD France Index (Hedged), less financing costs, management fees and taxes. Since July 1, 2012, a FTSE TMX Canada 30 Day TBill component was added to the calculation of the benchmark. This component represents 3% of the benchmark. The financing costs consisted of 50% hedged internal real cost of financing, 25% 3-year hedged U.S. bond rate plus a 2-3 year Gilberto-Levy credit spread and 25% 3-year Canadian bond rate plus a Canadian mortgage credit spread.

Until December 31, 2009, the benchmark was called the Aon-Real Estate Index and consisted of 70% IPD Canadian Property Index and 30% NCREIF Index (Hedged), minus a proportion of the FTSE TMX Canada Short Term Corporate Bond Index to reflect leverage.

These changes were justified to better reflect the makeup of the composite.

4. Calculation period

The return on this composite is calculated from January 1, 2008, to December 31, 2017.

5. Operating expenses and other fees

Returns are calculated before operating expenses and other fees, but net of transaction fees and expenses related to the unconsolidated subsidiary. Operating expenses and other fees in basis points correspond to the ratio of actual expenses incurred on average net assets. For the previous four years, the ratio corresponds to the average of the annual ratios.

For the 12 months ended December 31, 2017, operating expenses and other fees for this composite are 4 bps. For

the previous four years (January 1, 2013, to December 31, 2016), fees averaged 4 bps.

6. Investment valuation

As described in the General Notes, the Real Estate composite early adopted IFRS on January 1, 2012. La Caisse values its interest in Ivanhoé Cambridge, its unconsolidated subsidiary, at fair value as an investment. The fair value of the equity interest in the real estate subsidiary is established using a widely used enterprise valuation methodology: the publicly traded companies multiples method. This method relies on observable and unobservable inputs, such as the price-to-book value multiple. This enterprise value reflects, among other things, the fair value of assets and liabilities held directly by the subsidiary, mainly including investment properties, as well as the fair value resulting from the quality of the portfolio and integrated management of the subsidiary's platform. The valuation is established annually by an independent external firm.

The fair value of investment properties held directly by the subsidiary is determined and certified by external, recognized and independent chartered real estate appraisers. Since fundamental factors affecting fair value do not vary significantly over short periods, these properties have been appraised semi-annually since June 2007 and annually before that date. Appraisals are carried out in compliance with the appraisal standards in effect in each market. To establish the value as at June 30, the appraisers update the discount and capitalization rates and certify the new value. A complete reappraisal is performed as at December 31 of each year.

At each valuation date, investments held through external investment funds, unlisted shares and mortgage financing are valued internally by the real estate subsidiary and represent approximately 10% of the composite's assets. In the case of investment funds, representing more than 7% of the composite's assets, the valuation is subsequently compared with the fair market value provided by the general partners or the administrator.

Gains and losses on property dispositions are recognized on a quarterly basis. Moreover, a situation such as a request for financing or establishment of a property's tax value may give rise to a new valuation between evaluation periods. If this valuation results in a significant change in fair market value, it will be recorded during the quarter.

7. Other returns presented

For this composite, in addition to the total return, the annual returns from capital appreciation or depreciation and income return of the unconsolidated subsidiary are presented. The current income generated by the real estate subsidiary is reinvested in it. The current income includes lease revenue, return on cash and cash equivalents less real estate operating costs, and financing costs. Since January 1, 2011, these returns have been calculated separately, geometrically linking the returns calculated with the modified Dietz formula. Before January 1, 2011, these returns were calculated to ensure that the composite's total return equaled the geometric sum of both components.

Infrastructure

Returns and net assets under management for years ended December 31:

| | Returns (%) | | | Risk (%) | | Net Assets (\$K) | |
|-------|-------------|-----------|---------|-------------------|---------------------|------------------|-----------------------------|

Notes to the Infrastructure composite:

1. Composite description

This composite primarily manages negotiated investments covering various infrastructure sectors. The investments take the form of interests in listed or unlisted companies that operate utility-type assets. These investments can be carried out in companies that are in the development or mature stage of the business cycle.

This composite uses derivative financial instruments in the normal course of its management. Derivatives must be used only to hedge interest rate and currency risk, or for purposes of hedging a position held in the portfolio.

Since January 1, 2017, this composite may include currency hedging activities, in compliance with the Currency Management Policy adopted by la Caisse. Refer to Note 3 of the General Notes for more details.

A portion of the composite's assets is allocated to investment funds.

At each valuation date, the fair value of the investment funds is provided by the general partner. This valuation is then compared with the audited financial statements provided by the general partner. These funds represent 1% of this composite's assets.

2. Composite creation date

This composite was created on July 1, 2010.

3. Benchmark

As at January 1, 2017, the benchmark was gradually hedged according to the transition plan defined in the Currency Management Policy. A hedging strategy may be put in place for the main currencies in accordance with the process and guidelines defined in the Currency Management Policy. This change was made to better reflect the Currency Management Policy adopted by la Caisse.

From April 1, 2015 to December 31, 2016, the Infrastructure benchmark corresponded to the MSCI ACWI Infrastructure Index (Adjusted and Hedged), with the exception of emerging markets companies, which are unhedged. This change was made in order to better reflect the universe of public infrastructure investment opportunities.

From January 1, 2013, to March 31, 2015, the Infrastructure benchmark consisted of a basket of publicly traded, hedged infrastructure companies, with the exception of emerging markets companies, which were unhedged.

From July 1, 2010, to December 31, 2012, the benchmark was comprised of a basket of publicly traded, hedged infrastructure companies provided by Standard & Poor's.

Over short periods, significant differences can be observed between the return of the composite and its benchmark. The benchmark is comprised of publicly traded securities, whereas the composite is invested mainly in privately issued securities. The difference in returns is due to market fluctuations.

4. Calculation period

The return on this composite is calculated from July 1, 2010, to December 31, 2017.

5. Operating expenses and other fees

Returns are calculated before operating expenses and other fees, but net of transaction fees and investment fund fees. Operating expenses and other fees in basis points correspond to the ratio of actual expenses incurred on

average net assets. For the previous four years, the ratio corresponds to the average of the annual ratios.

For the 12 months ended December 31, 2017, operating expenses and other fees for this composite are 48 bps. For the previous four years (January 1, 2013, to December 31, 2016), fees averaged 42 bps.

Public Equity

Returns and net assets under management for years ended December 31:

| | Returns (%) | | | Risk (%) | | Net Assets (\$K) | |
|-----------------|-------------|-----------|--------|-------------------|---------------------|------------------|-----------------------------|
| | Composite | Benchmark | Spread | Std. Dev. Returns | Std. Dev. Benchmark | Composite | Net Assets Under Management |

| 2016 | 9.40 | 7.51 | 1.89 | n/a | n/a | \$101,271,741 | \$270,018,068 |
| Since inception | 11.54 | 10.80 | 0.74 | n/a | n/a | n/a | n/a |

Annualized returns as at December 31 (as a percentage):

| | 1 Year | 2 Years | 3 Years | 4 Years | 5 Years | 6 Years | 7 Years | 8 Years | 9 Years | 10 Years |
|-----------|-----------|---------|---------|---------|---------|---------|---------|---------|---------|----------|
| Composite | 13.73 | 11.54 | | | | | | | | |
| 2017 | Benchmark | 14.20 | 10.80 | | | | | | | |
| | Spread | (0.48) | 0.74 | | | | | | | |

Notes to the Public Equity composite:

1. Composite description

As part of the overall revision of the specialized portfolios offered to depositors, the Global Quality Equity, Canadian Equity, Emerging Markets Equity, U.S. Equity and EAFE Foreign Equity composites were merged and their assets and liabilities were transferred to create the Public Equity composite as of January 1, 2016. There was no gain or loss as a result of the consolidation of the composites.

The Public Equity composite aims to achieve a risk adjusted return that is higher than traditional equity investments. To achieve this objective, the composite adopts an investment approach that is benchmark agnostic, instead basing its investment decisions on company specific criteria. Since January 1, 2017, this composite has been subdivided into seven main mandates: Global Quality, Canada, Alternative Beta, Growth Markets, Global Value, Relationship Investing and Strategic. For each of these mandates, a rigorous investment process, governed by a specific internal investment committee oversees security selection and portfolio construction.

A portion of the composite's assets is allocated to external managers.

This composite may use up to 5% leverage in the normal course of investment activities.

Since January 1, 2017, this composite may include currency hedging activities, in compliance with the Currency Management Policy adopted by la Caisse. Refer to Note 3 of the General Notes for more details.

Interest rate and currency derivatives must be used only for hedging interest rate and currency risk, except in the case of exceptional approval.

Securities lending and borrowing activities as well as short selling are permitted as part of the management of this composite, based on authorized limits.

2. Composite creation date

This composite was created on January 1, 2016.

3. Benchmark

The FTSE TMX Canada 91 Day TBill Index makes of 10% of the "Public Equity" benchmark, and a traditional equity component makes up the remaining 90%, which in turn consists of 60% MSCI World (ex-Canada) unhedged index, 25% S&P TSX index and 15% MSCI EM unhedged index.

Since January 1, 2017, a hedging strategy may be put in place for the main currencies in accordance with the process and guidelines defined in the Currency Management Policy. This change was made to better reflect the Currency Management Policy adopted by la Caisse.

4. Calculation period

The return on this composite is calculated from January 1, 2016, to December 31, 2017.

5. Operating expenses and other fees

Returns are calculated before operating expenses and other fees, but net of transaction fees and investment fund fees. Operating expenses and other fees in basis points correspond to the ratio of actual expenses incurred on average net assets.

For the 12 months ended December 31, 2017, operating expenses and other fees for this composite are 21 bps. Since the inception of the composite (January 1, 2016), to December 31, 2016, fees averaged 16 bps.

Private Equity

Returns and net assets under management for years ended December 31:

| | Returns (%) | | | Risk (%) | | Net Assets (\$K) | |

Notes to the Private Equity composite:

1. Composite description

This composite consists of private equity activities that specialize in the following types of investment: leveraged buyouts, growth capital, venture capital, distressed debt, mezzanine debt and restructuring.

Some assets originally in the Investments and Infrastructures composite were transferred into the composite on July 1, 2010, as a result of the revised portfolio offering and the closing of the Investments and Infrastructures composite.

This composite uses derivative financial instruments in the normal course of its management. Derivatives are used to hedge interest rate and currency risk, or to hedge a position in the portfolio.

Since January 1, 2017, this composite may include currency hedging activities, in compliance with the Currency Management Policy adopted by la Caisse. Refer to Note 3 of the General Notes for more details.

At each valuation date, the fair value of the investment funds is provided by the general partner. This valuation is then compared with the audited financial statements provided by the general partner. These funds represent 27% of this composite's assets.

2. Composite creation date

This composite was created on October 1, 2003.

3. Benchmark

Since January 1, 2017, the benchmark was comprised of 50% GXPEI¹ Adjusted (Unhedged), and 20% MSCI ACWI (Unhedged) and 30% S&P/TSX (Capped). A hedging strategy may be put in place for the main currencies in accordance with the process and guidelines defined in the Currency Management Policy. These changes were made to better reflect the makeup of the composite and the Currency Management Policy adopted by la Caisse

From January 1, 2016 to December 31, 2016, the benchmark consisted of 50% State Street Private Equity Index Adjusted (Partially Hedged) and 50% MSCI World Index (Partially Hedged). This change was made to better reflect the composite's hedging policy.

From January 1, 2013, to December 31, 2015, the benchmark consisted of 50% State Street Private Equity Index Adjusted (Hedged) and 50% MSCI World Index (Hedged). This change was made to better reflect the makeup of the composite.

From July 1, 2010, to December 31, 2012, the benchmark consisted of 70% State Street Private Equity Index Adjusted (Hedged) and 30% MSCI World Index (Hedged). The assets

¹ Previously called State Street Private Equity

transferred into this composite on July 1, 2010, altered the composition of the composite, justifying this change.

From January 1, 2008, to June 30, 2010, the benchmark consisted of 60% S&P 500 Index (Hedged) and 40% MSCI EAFE Index (Hedged). Sector and geographic changes in the composite's investment policy, as well as increased liquidity, justified this change.

4. Calculation period

The return on this composite is calculated from January 1, 2008, to December 31, 2017.

5. Operating expenses and other fees

Returns are calculated before operating expenses and other fees, but net of transaction fees and investment fund fees. Operating expenses and other fees in basis points correspond to the ratio of actual expenses incurred on average net assets. For the previous four years, the ratio corresponds to the average of the annual ratios.

For the 12 months ended December 31, 2017, operating expenses and other fees for this composite are 53 bps. For the previous four years (January 1, 2013, to December 31, 2016), fees averaged 34 bps.

Balanced Fund

Returns and net assets under management for years ended December 31:

| | Returns (%) | | | Risk (%) | | | Net Assets (\$K) | |
|------|-------------|-----------|--------|--------------------|----------------------------|-------------------|---------------------|---------------|
| | Composite | Benchmark | Spread | Number of Accounts | Std. Dev. of Acct. Returns | Std. Dev. Returns | Std. Dev. Benchmark | Composite |
| 2017 | 9.27 | 9.23 | 0.03 | 57 | 2.01 | 4.62 | 5.05 | \$298,424,595 |
| 2016 | 7.57 | 5.76 | 1.81 | 56 | 2.18 | 4.19 | 4.76 | \$270,018,068 |

| Spread | 0.03 | 0.93 | 1.42 | 1.22 | 1.08 | 0.94 | 0.76 | 1.18 | 0.61 | (0.36) |

Composition of the Balanced Fund Benchmark as at December 31, 2017:

| | Benchmark ¹ | Weights |
|--|------------------------|---------|
| Rates Benchmark | | 14% |
| Credit Benchmark | | 16% |
| FTSE TMX Canada 91 Day TBill | | 1% |
| FTSE TMX Canada Long-Term Government Bond (Adjusted) | | 1% |
| Real Estate Benchmark | | 12% |
| Infrastructure Benchmark | | 6% |
| FTSE TMX Canada Real Return Bond | | 0% |
| Public Equity Benchmark | | 38% |
| Private Equity Benchmark | | 12% |

1. Benchmark descriptions are presented in the notes of each composite.

Notes to the Balanced Fund composite:

1. Composite description

This composite consists of all depositors' accounts, including the General Fund. It measures the overall impact of la Caisse's asset allocation strategy for all asset classes available to depositors. Treasury, overlay activities and Public Equity calibration mandates are also included in this composite. Since 2007, an unrealized loss on ABTNs has been recorded in this composite. La Caisse no longer holds ABTNs following the closing of the specialized portfolio on June 1, 2017.

This composite may include derivative financial instruments in the normal course of investment management. Derivatives are used mainly to hedge positions, to reduce market risk, to take advantage of arbitrage opportunities, to replicate the benchmark, to accelerate investment or disinvestment, to hedge currency risk and interest rate risk and to match the duration of a composite to that of the benchmark.

Leverage activities may be present in the composite, including short selling. The extent of the leverage depends

on the nature of the investment. Some strategies have no leverage while others are fully leveraged within the authorized limits.

A portion of the composite's assets is allocated to external managers.

Since January 1, 2017, this composite may include currency hedging activities, in compliance with the Currency Management Policy adopted by la Caisse. Refer to Note 3 of the General Notes for more details.

In 2014, after the adoption of IFRS, a change was made to the methodology used to evaluate the composites. Refer to Note 3 of the General Notes for more details. The adoption of IFRS for these composites had no impact on the return of the Balanced Fund composite.

In 2012, after the early adoption of IFRS for the Real Estate composite, a change was made to the valuation methodology used for the Real Estate composite of the Balanced Fund. Refer to the Real Estate composite of this document for more details.

2. Composite creation date

This composite was created on October 1, 2002.

3. Benchmark

The benchmark for this composite is an index created by la Caisse. It consists of the weighted average of the depositors' benchmarks. These benchmarks correspond to the weighted average of the indexes of each investment class as specified in the reference policy of each depositor. The

depositors' reference policies are established once a month according to the depositors' preferences and needs, as well as market forecasts. At depositors' request, the benchmark may include an adjustment to the duration determined by the depositors' reference policy. In addition, the index includes a level of exposure to currencies. Since January 1, 2017, a hedging strategy may be put in place for the main currencies in accordance with the process and guidelines defined in the Currency Management Policy. This change was made to better reflect the Currency Management Policy adopted by la Caisse. The weight of each index that makes up this composite's benchmark as at December 1, 2017, is presented in the table on the previous page.

4. Calculation period

The return on this composite is calculated from January 1, 2008, to December 31, 2017.

5. Operating expenses and other fees

Returns are calculated before operating expenses and other fees, but net of transaction fees, expenses related to real estate subsidiaries and investment fund fees. Operating expenses and other fees in basis points correspond to the ratio of actual expenses incurred on average net assets. For the previous four years, the ratio corresponds to the average of the annual ratios.

For the 12 months ended December 31, 2017, operating expenses and other fees for this composite are 22 bps. For the previous four years (January 1, 2013, to December 31, 2016), fees averaged 18 bps.

5 ANNUAL INTEREST OR INCOME PAID OUT ON AVERAGE DEPOSITS
 (rate as a percentage)

| CATEGORIES OF DEPOSITS | 2017 | 2016 | 2015 | 2014 | 2013 | 2012 | 2011 | 2010 | 2009 | 2008 |
|-------------------------------------|-------------|------|------|------|------|------|------|------|------|------|
| Demand deposits ¹ | 0.70 | 0.50 | 0.65 | 1.00 | 1.00 | 1.00 | 1.00 | 0.61 | 0.61 | 3.11 |
| Term deposits ¹ | 2.87 | 3.08 | 1.80 | 1.81 | 1.54 | 1.47 | 1.69 | 0.78 | 1.39 | 3.55 |
| Participation deposits ² | 4.36 | 5.58 | 6.57 | 6.88 | 6.64 | 5.74 | 4.00 | 1.76 | 1.14 | 0.65 |

¹ The General Fund receives demand and term deposits from depositors and pays out interest on these deposits. The rate indicated is the average rate paid out during the year.

² Income earned on the investments of La Caisse's General Fund and Individual Funds is paid out or allocated to participation deposit holders. The rate indicated is the average annual rate. The rate represents only the net income as well as the net realized gains or losses upon cancellation of the participation units of specialized portfolios held by the Individual Funds. It does not account for the changes in the fair value of investments. For purposes of this calculation, participation deposits are computed at cost. The rate is different from the time-weighted rate of return which includes both income and changes in the fair value of investments.

¹ The annual list must not provide any information deemed to be detrimental to the operations of la Caisse, to its economic interests or competitiveness or which may reveal an intended transaction, an ongoing transaction or series of ongoing transactions or which may cause prejudice to a company. Consequently, there may occasionally exist differences between the investments in the annual list and those recorded in the books of la Caisse at December 31.

INVESTMENTS IN SHARES OF PUBLICLY TRADED COMPANIES AND IN BONDS ISSUED IN PUBLIC MARKETS

as at December 31, 2017

(fair value - in millions of dollars)

Notes that are important to understand the table:

This table lists the major investments in shares of publicly traded companies and in bonds issued in public markets and underlying investments from its non-consolidated subsidiaries of Ivanhoé Cambridge Group, Otéra Capital and subsidiaries created pursuant to section 37.1 of the Act respecting the Caisse. This table is subject to the disclosure standards applicable to the annual list of such investments. In addition to these investments and according to the investment policies of the specialized portfolios, the managers use derivative financial instruments that generate a return on equity securities, without these securities being the property of la Caisse.

The annual list must not provide any information deemed to be detrimental to the operations of la Caisse, to its economic interests or competitiveness or which may reveal an intended transaction, an ongoing transaction or series of ongoing transactions or which may cause prejudice to a company. Consequently, there may occasionally exist differences between the investments in the annual list and those recorded in the books of la Caisse at December 31.

Notes that are important to understand the table:

This table lists the major investments in shares of publicly traded companies and in bonds issued in public markets and underlying investments from its non-consolidated subsidiaries of Ivanhoé Cambridge Group, Otéra Capital and subsidiaries created pursuant to section 37.1 of the Act respecting the Caisse. This table is subject to the disclosure standards applicable to the annual list of such investments. In addition to these investments and according to the investment policies of the specialized portfolios, the managers use derivative financial instruments that generate a return on equity securities, without these securities being the property of la Caisse.

The annual list must not provide any information deemed to be detrimental to the operations of la Caisse, to its economic interests or competitiveness or which may reveal an intended transaction, an ongoing transaction or series of ongoing transactions or which may cause prejudice to a company. Consequently, there may occasionally exist differences between the investments in the annual list and those recorded in the books of la Caisse at December 31.

INVESTMENTS IN SHARES, BONDS AND CORPORATE RECEIVABLES ISSUED IN PRIVATE MARKETS

as at December 31, 2017

(fair value - in millions of dollars)

Value of investments:

A = \$0 to \$5 million

C = \$10 to \$30 million

E = \$50 to \$100 million

G = \$150 to \$300 million

I = \$500 to \$1 billion

K = \$1.5 billion and over

B = \$5 to \$10 million

D = \$30 to \$50 million

F = \$100 to \$150 million

H = \$300 to \$500 million

J = \$1 billion to \$1.5 billion

Notes that are important to understand the table:

This table lists the major investments in shares, bonds and corporate receivables issued in private markets and underlying investments from its non-consolidated subsidiaries of Ivanhoé Cambridge Group, Otéra Capital and subsidiaries created pursuant to section 37.1 of the Act respecting the Caisse. This table is subject to the disclosure standards applicable to the annual list of such investments.

The annual list must not provide any information deemed to be detrimental to the operations of la Caisse, to its economic interests or competitiveness or which may reveal an intended transaction, an ongoing transaction or series of ongoing transactions or which may cause prejudice to a company. Consequently, there may occasionally exist differences between the investments in the annual list and those recorded in the books of la Caisse at December 31.

Pursuant to agreement, the specific value of investments in any private company (according to the definition provided in the Québec Securities Act) does not appear in this list unless the company has agreed to such disclosure.

The investment sectors are no longer presented separately in order to harmonize the presentation with the Investments in shares of publicly traded companies and in bonds issued in public markets table.

Notes that are important to understand the table:

This table lists the major investments in shares, bonds and corporate receivables issued in private markets and underlying investments from its non-consolidated subsidiaries of Ivanhoé Cambridge Group, Otéra Capital and subsidiaries created pursuant to section 37.1 of the Act respecting the Caisse. This table is subject to the disclosure standards applicable to the annual list of such investments.

The annual list must not provide any information deemed to be detrimental to the operations of la Caisse, to its economic interests or competitiveness or which may reveal an intended transaction, an ongoing transaction or series of ongoing transactions or which may cause prejudice to a company. Consequently, there may occasionally exist differences between the investments in the annual list and those recorded in the books of la Caisse at December 31.

Pursuant to agreement, the specific value of investments in any private company (according to the definition provided in the Québec Securities Act) does not appear in this list unless the company has agreed to such disclosure.

The investment sectors are no longer presented separately in order to harmonize the presentation with the Investments in shares of publicly traded companies and in bonds issued in public markets table.

¹ Investment made or held by la Caisse or one of its subsidiaries pursuant to the last paragraph of section 37.1 of the Act respecting the Caisse.
